Laboratory Practice

Our training sessions will help you to learn how to create basic and advanced personal care products from formulation experts.

This course is ideal for:

- For laboratory and R&D staff;
- Ingredients suppliers;
- Product development personnel;
- Technical staff involved in manufacturing;
- Marketing or Sales professionals.

Why attend a Laboratory Practice?

During the session you will learn practical techniques from your lab experts and **will be able to:**

- Evaluate and select the right type of ingredients;
- Develop a formula;
- See how to achieve different outcomes using the same ingredient;
- Assess your formulation;
- Learn helpful hints and tips.

Places for visitors are limited.

Could you lead a Laboratory Practice?

Share your expertise in formulation!

Please send your proposals for our team conference@cosmeticsukraine.org

Deadline to submit Feb. 28, 2018
